PROJECTS

ParkSwift – Online Parking Slot Reservation System

Technologies: *MERN Stack (MongoDB, Express.js, React.js, Node.js)*

- Developed a full-stack web app for users to book parking slots in real time.
- Implemented role-based login (User, Slot Owner, Admin) with JWT authentication.
- Created dashboards for each role with booking history, notifications, and profile management.

E-Commerce Website (*In Progress*)

Technologies: *MERN Stack (MongoDB, Express.js, React.js, Node.js)*

- Developing a full-stack online store with product browsing, cart, and secure checkout.
- Implementing user authentication, product management, and order history features.
- Focused on responsive design and user-friendly UI.

MERN Authentication system

Technology: *MERN*

- Built a secure authentication system using JWT and cookies for login/logout functionality.
- Included features like user registration, password reset via OTP, and session handling.
- Designed responsive frontend with React and Tailwind CSS.
